Professional Services

UBT has an exemplary record of providing a variety of customized Professional Services to Federal, State, and Commercial customers. Our certified experts employ our proprietary toolkit of vetted best practices, processes, templates, metrics, and dashboards. So you not only get the benefit of our years of experience, you also get the backing of UBT's intellectual property and account oversight as constant assurance that you will receive consistent and first class delivery of services. We adhere to a rigorous talent acquisition process, ensuring that our employees bring a history of demonstrated performance managing a diverse range of projects and programs.

Our professional services delivery allows you to:

- Align programs and projects to your goals
- Manage personnel to meet performance expectations
- Adapt industry best practices to project and program management

Our Capabilities Include:

Program / Project Management

Committing the appropriate resources to execute the project and utilize proven, industry-leading methods and tools.

Procurement Services

Analyzing requirements and recommending methods of procurement best suited to your company's specific needs.

Administrative Support

Office management, tracking, and documenting of employee processes that allows your business to focus on big picture goals.

Online Event Management

Event logistics from planning through execution in accordance with your needs, thereby providing you the best showcase possible to execute your vision.

Logistics & Facilities Management

Keeping your facilities running smoothly while allowing you to conduct your business with fewer logistical headaches.

Engineering & Construction Management

Multi-discipline engineering solutions with an eye towards your needs and budget, applicable regulations, sustainability, and endurance.
